JeepTech.com's Jeep Transmission Page

There is a common issue with shifting on a number of Jeep Grand Cherokee models as they age and their mileage increases. The shifting problem usually surfaces when the vehicle is first started and the engine and transmission are cold. You're often still able to drive the vehicle, but it only operates in one or two gears.

The transmission fluid for your Jeep Grand Cherokee lubricates the moving parts of the transmission, and is pressurized to control shifting in the valve body. Transmission fluid is exposed to high temperatures and may break down with time. When this happens, you may notice dark or burnt-smelling transmission fluid.
