**BS 9999 : Fire safety in the design, management and use of ...**  
BS 9999:2008 is based on government guidance and provides a best practice framework for fire safety. The standard outlines ways to test all aspects of your fire strategy, including easy access to exits, to ensure the safety of people in and around the buildings.

**BS 9999:2008 - BSI Group**  
BS 9999 is one of the most important guidance documents dealing with fire safety in buildings and, as stated in the document, its principal purpose is 'to provide Guidance which gives a more transparent and flexible approach to fire safety design through the use of a structured approach to risk-based design where designers can take account of varying physical and human factors'.

**The BS 9999 Handbook - BSI Group**  
BS 9999, which has taken over ten years to develop, was published by the British Standards Institution in October 2008. The document builds on the existing government guidance to provide an enhanced design guide which is based on scientific analysis and research.

**bs-9999.com - []**  
The concept behind the development of BS 9999 and BS 7974 is that technical guidance on fire safety is provided at three different levels. This permits a design approach to be adopted that corresponds to the complexity of the building and to the degree of flexibility required. The three levels are as follows:

**British Standard BS 9999:2017 has been revised for 2017 ...**  
BS 9999 gives recommendations and guidance on the design, management and use of buildings to achieve reasonable standards of fire safety for all people in and around them.

BS 9999(2008) - 2008 Withdrawn. Withdrawn A Withdrawn Standard is one, which is removed from sale, and its unique number can no longer be used. The Standard can be withdrawn and not replaced, or it can be withdrawn and replaced by a Standard with a different number.

**BS 9999(2008) : 2008 | CODE OF PRACTICE FOR FIRE SAFETY IN ...**  
BS 9999 has in part superseded BS 5588, the only parts of which are still current are those that relate to residential properties. BS 9999 has to be applied in its entirety, you cannot dip into it for piecemeal solutions. Although some fire safety knowledge is required, BS 9999 could be a useful tool for many designers.

**Fire safety - Approved Document B vs BS 9999 | NBS**  
BS 9999 is designed as a co-ordinated package covering the four main areas that influence fire safety measures, namely fire safety management, the provisions of means of escape, the structural protection of escape facilities and the structural stability of the building in the event of a fire, and the provision of access and facilities for fire-fighting.
