Journal of New Approaches in Educational Research

This study explored early career teachers' perspectives on their competencies in professional teaching in Qatar. Using a mixed-method research design, this study drew on empirical data from ninety-five survey respondents and ten individual interviews with teachers who were in their first four years of working in Qatari governmental schools.

The Impact of a Teacher Preparation Programs on ...

Digital competence is an evolving concept related to the development of digital technology and the political aims and expectations of citizenship in a knowledge society. It is regarded as a core competence in policy papers; in educational research it is not yet a standardized concept. We suggest that it is a useful boundary concept, which can be used in various contexts. For this study, we ...
