I used this study guide and practice exam listed below by Wasim Asghar and found it to be very helpful for passing my FE. It covers all the topics you'll see on the electrical FE minus prob & stats, engineering economics and basic math. Between those two and the practice exam offered by NCEES, it should give you a good idea of what to expect.

I went through every video and did the problems in the practice book. He covers every single section and although it can be redundant (and frankly unnecessarily in depth at times for the problems) I thought it was helpful and seeing the range of questions to expect. After studying enough by the end of August I took the FE practice exam they offer.
