My Garmin edge 500 will not start up it is stuck on the ...

When the Garmin Edge 500 was first announced earlier this fall at Interbike, the message around its purpose in life was clear: A full featured GPS based cycling computer that's lean and mean, aimed at keeping a low profile on the bike for high profile races. Garmin's made numerous mentions to the fact that much of this cycling computer was based on feedback directly from Team Garmin, the ...

Edge 500 features a high-sensitivity GPS receiver with HotFix™ satellite prediction to calculate your position faster. Get the Data You Need During your ride, Edge 500 measures your speed, distance, time, calories burned, altitude, climb and descent, and records this data for your review.

Edge 500 | Garmin

I've got a Garmin Edge 500 and it wont connect to my PC. I've never had this problem before. I normally plug it in, the Garmin beeps, then a pop up comes up on my PC asking what I want to do with the device. I can then go to Garmin Connect or Strava and the device is found. Now the Garmin beeps, and charges, but the PC just shows a message:

Garmin Connect

The receiver comes in two basic versions, the Edge 500, and the Edge 500 with heart rate monitor and cadence sensor. The kit comes with the Edge 500 (obviously), a USB connector, a CD, quick start manual (in a slew of languages), USB to wall power connector (with multi country plugs), and the new mount system (which includes 2 mounts and extra attachment bands).
