The engine is capable of achieving up to 217 horsepower, which is an achievement for a naturally aspirated with a displacement of only 131.6 cubic inches. The technology of having dual overhead valves also makes this a fairly unique engine for this time. The power from this engine to go along with reliability made the H22A a very popular engine.

Honda H-Series: Engine Basics and Specs. The Honda H-Series, as we mentioned, is Honda's larger performance oriented engine offering. It shares much of its design with the F-Series of engines, in fact, the F20B is essentially just a destroyed H22 which Honda used for racing in the 2-liter class of international racing.
