How To Own The World

The basic premise of the book of 'owning the World' and taking the time and interest in your own finances is good. All too often though I found the writing a bit rambling, repetitive and dogmatic. The description of the different asset classes

In the long run, you will want to have cash, shares, bonds, commodities, and property, not just one or two of these. You should aim to own assets from all over the world, not just one geographical area such as the UK or US. Owning the world means that you end up being diversified both geographically and by asset class.
