Journal Of Bank Taxation

1. Introduction. This paper analyzes the incidence of taxation on banking activity. Theoretically, when a tax is levied on a bank (e.g. corporate income tax) its incidence can fall on different parties: shareholders, customers, employees, the suppliers of bank inputs other than labor, and the government itself, given that value added tax (VAT) is paid on some bank inputs.

My first point was essentially that if the bank account is a business bank account and the compensation is for disturbance of the business it will be taxable. If it's a personal bank account, then I think the compensation doesn't have a source to render it income, so it's a capital receipt that doesn't arise from a chargeable asset.
