Logic Problems With Solution

Solution: The payments should equal the receipts. It does not make sense to add what was paid by the men (\$12) to what was received from that payment by the waiter (\$2) Although the initial bill was \$15 dollars, one of the five dollar notes gets changed into five ones.

Logic Problems - Logic Puzzles

A logic problem is a general term for a type of puzzle that is solved through deduction. Given a limited set of truths and a question, we step through the different scenarios until an answer is found. While these problems rarely involving coding, they require problem-solving and the ability to articulate plausible outcomes.
