How to Make a Headlight Wiring Relay Kit : 3 Steps ...

I'm probing the connector on the headlight wiring harness while it is disconnected from the headlight assembly. No voltage or continuity back to the fuse block for low-beam only. I did verify the assembly internal wiring has continuity from the connector to the terminals on the back of the bulb.

Low beam headlights no power (high beams work ...

So, use the right size wire. (See the lighting diagram below.) Tip: You can buy trailer wire cable to run wiring to the back of a car. It's fully insulated and contains up to 7 wires. It's cheap, by the foot, and protects the wiring from any cuts, wear, etc. Just make sure the gauge is ok for what you want. Ok, so let's get to wiring.

How to Wire up Lights in Your Hotrod!

Instead, thin wire can run to the 86 and 85 terminals of the relay, and thick wire can run only from the battery to 30 and then from 87 to the headlights. My 1975 BMW 2002 was, I believe, the first model that had both a high beam and a low beam relay.

Troubleshooting my low-beam relay was very enlightening ...

GM Headlight Switch Circuit Descriptions: 0. The Hi beam and low beam have a shared ground wire, with separate power wires. The 9004 and the 9007 bulbs share the same plug, however the plug is wired differently. I will snap some pics of my "corrected" lights tonight and put 'em up with the correct rewiring sequence for you, and anyone else that needs it because i know its a common problem ...

Headlight Wiring... Help!!!! | DODGE RAM FORUM - Dodge ...

All the wire diagrams posted so far are 2011+ with separate high and low beam bulbs. 08-10 uses a different architecture for switching the H4 bulb. There was some confusion about the 2011 diagrams above though, just know they use a mosfet (see below) to control the DRL on the high beams.

High beam Headlights not working | Toyota Nation Forum

This seems like an easy one but I'm not great with wiring. I have a Tusk dual sport wiring kit with their headlight switch (off,low,high). The wiring harness has a blue wire for high beam and white for low. I want the low switch to turn one light on, and high to turn on a second light while keeping the first one on too.

Headlight wiring question - Tusk Enduro light kit ...

This headlight switch has four positions. In is off, out one notch is park lights, out another notch is lows beams, and all the way out is high beams. Screw type terminals. 3/8" mounting hole. Works with both 6V and 12V systems.

Speedway Universal Headlight Switch with Hi/Low

2004 Chevy Impala no low beams. They worked hood got slammed not working now. Amb sensor replace, relay replaced, fuses, and bulbs. Still no low beams high beams if the multi switch is held. Need this fixed have had multiple people throw their hands up. On a rainy day a few weeks ago the turn singals didn't work. Could it be the multi switch?
