NATO NATO STANDARDIZATION AGENCY OTAN

A STANAG magazine or NATO magazine is a type of detachable firearm magazine proposed by NATO in October 1980. Shortly after NATO's acceptance of the 5.56×45mm NATO rifle cartridge, Draft Standardization Agreement 4179 was proposed in order to allow NATO members to easily share rifle ammunition and magazines down to the individual soldier level. The U.S. M16 rifle's magazine proportions were ...

STANAG magazine - Wikipedia

The fifth draft of the AOP-7 Manual of Tests, which is the companion document to STANAG 4170, is being assembled. The principal features of assessment principles and methodologies, national qualification procedures, reference explosives, test information sheets, methods to record and issue data, and the duties of National Authorities are described in detail.
