Open Innovation The New Imperative

Open Innovation is not new - it has been around for around 50 years. Many companies used OI to give themselves an edge. It was not given a name until the 21st century when Chesbrough saw it, being used, described it, gave it the name Open Innovation and cashed in with fancy words such as "The New Imperative For Creating & Profiting From Technology".

Open Innovation: The New Imperative For Creating and ...

It was originally introduced by Chesbrough in his 2003 book Open Innovation: The New Imperative for Creating and Profiting from Technology. 7 Open innovation assumes that firms can and should use external ideas as well as internal ideas, and internal as well as external paths to market, as they look to advance their innovations. Open innovation processes combine internal and external ideas together into platforms, architectures, and systems.

new business development processes and the marketing of new products took place within the firm boundaries (Figure 1).

Open Innovation | Open Innovation - Keynotes ...

The open innovation model that Chesbrough describes shows the necessity of letting ideas both flow out of the corporation in order to find better sites for their monetization, and flow into the corporation as new offerings and new business models. Finding the right balance and mechanisms for this situation to take place is critical.
