Outsourcing: for Beginners - Outsourcing 101 - How to ...

A simple strategy for outsourcing is to create a list of the positions, and associated tasks for each position, and then determine where you currently have holes in your processes or systems, or where there are places that can be run more effectively, or efficiently. Those areas are generally the first and most ideal candidates for outsourcing.

Outsourcing 101 – What, When, How and WHO?

Outsourcing is not just about handing off your day-to-day work to another person or agency, it's about optimizing your approach and operation, if possible. By starting with your "ask", or the task list of things that need to be done, you can decide what you want to remain doing yourself, and what you want to not only enhance, but pass off.
