The Panda Bear certainly is very different in appearance than the other species of bears. It features both black and white on the body. The head is white with black around the eyes. The limbs are black as is the band around the back of the neck that extends from both of the front limbs.

### **Giant Panda Bear - Animal Facts and Information**

Panda is an anthropomorphic bear. Being a panda, his body is covered with black fur, with white fur on his head (excluding the eyes and ears) and a white stripe across his belly. He is shorter than his brothers, with a wider frame than both. He is shown to have small black eyes surrounded by black fur, which he likens to a “birthmark”.
