Portfolios allow design professionals to present their best work in a compact, easy-to-digest way. The contents of a portfolio are key—but they won't do any good if nobody opens it in the first place. This is why the external design of a print portfolio should never be overlooked.

14 Excellent Paper and Print Portfolio Design Examples

Secure documents in a portfolio to ensure they look as professional on paper as you sound in presentations. Professional portfolios and executive folders provide durable protection for the pages inside and allow you to keep each page, business card and brochure in one organized space.

Professional Portfolios at Office Depot OfficeMax

In my opinion, the best use of a portfolio is to use it as a "talking point" and show pictures and lessons to illustrate your points. It also shows that you are organized and prepared. If you just leave them the link to your web portfolio, they may or may not actually ever look at.

Portfolios show your creative or professional talents in a way that is far more extensive and elaborate than a résumé offers. The elements of your portfolio largely depend on what field you're going into, but there are a few basics that apply to all types. Part 1

How to Make a Portfolio (with Pictures) - wikiHow

This paper examines techniques that organizations can use to effectively select, prioritize, and coordinate projects when developing project portfolios. In doing so, it overviews the primary business problem that organizations face--numerous projects, limited resources; it defines PPFM, describing how it can help organizations prevent this primary business problem.
