### **The Cacti Manual**

Cacti and succulents are traditionally found in arid sandy places (you've got a mental image of a desert for a reason) and the cacti's shallow roots are used to loose, well draining soils. The stuff you find at the local garden warehouse isn't usually the best, often made with cheap ingredients that clump around the roots and lead to root rot.

### **How to Install Cacti SNMP Monitoring Tool on Debian 9**

Sometimes people call this feature “Importing external rrd’s” to cacti. But what I'm going to explain is not an automated function. It will require some manual interaction. Of course, the webserver must have at least read access to the required rrd file(s). For sake of easiness, I'll assume the file to be located in cacti's default ./rra ...
