Excellent! The best test-prep book (in any subject) that I've come across so far. I used this book to study for the AP Biology exam without having taken AP Biology, or any other Biology course, and didn't start studying until the spring semester before the AP Biology Exam, but still managed to score a 5.

It not only works as a study guide for the AP exam, but since it is based off of our textbook, and breaks down the review chapter by chapter, it works as a study guide for the entire school year. It lists the vital information from each chapter based on the curriculum framework and offers tips from the test readers on what to review in more depth.
