Thanks if you dont know please dont post dealer closed today and I would like to put mine back together. Sent from my iPad using Tapatalk

Torque specs for 16 800 etec (cylinders and head) - REV ...

The 125-horsepower* Rotax 600R E-TEC engine incorporates second generation E-TEC technology from its big brother twin 850 E-TEC 2-stroke. It offers more responsive, dynamic performance and 5 more HP than its predecessor - all while keeping its reputation for leading reliability and fuel and oil usage.

Rotax Snowmobile Engine and motor: 2 stroke and ... - Ski-Doo

Torque from the 800R engine showed best at 8,100 rpm too. The 101 foot-pounds is about 8 more than the standard 800 engine delivered. The 800R simply out-does its 800 and 1000 4-stroke competition in the torque department too. Comparing the 800R with the next highest 2-stroke cc level is what we would have to do to really keep the competition ...

Dyno Test: Ski-Doo Summit 800R | American Snowmobiler Magazine

This testing would seem to indicate that Ski-Doo's claim is based on merit. Bottom line: The choice is yours as Ski-Doo offers both an SDI and HO version in the 800 and 600 displacement categories. You enjoy a bit more power and get a nice fat torque curve to clutch around in the REV 800 HO. And, longer legs for wide open running.
