Technical communication is a broad field and includes any form

File Type PDF Technical Communication Sims

of communication that exhibits one or more of the following characteristics: Communicating about technical or specialized topics, such as computer applications, medical procedures, or environmental regulations.

Defining Technical Communication

Technical communication is a series of deliberate problem-solving activities—activities that require critical thinking. Before writers can effectively put words on a computer screen or report facts, they must understand why they are writing, who is reading, and why the readers are reading.
